PROFILE

I am a software QA engineer with 7+ years of experience in web & mobile apps testing. I learnt the basics of testing from the best QA engineers in industry at HERE Berlin. Since that I have developed my own motto: *"Explore. Think. Test. Review."* It helps me to structure the work, communicate with colleagues, achieve company goals and reduce amount of bugs & defects.

EXPERIENCE

Lead QA engineer, nebenan.de (2017 — Present)

- Guarantee 99% availability of 7 platforms. Up to date crash-free statistics for android: 99.97% & iOS: 99.87% (stack: ruby on rails (BE), react (FE), java/kotlin & swift)
- Built the end-to-end test system for front-and back-end to ensure stability of the platforms (stack: ruby & cucumber)
- Hired, onboarded, guided & lead the QA team of 5 members
- Increased the productivity by 50% after introducing Kanban methodology & Jira software

QA engineer, nebenan.de (2016 — 2017)

- Set up the mobile testing system to keep crash-free statistics >99%
- Convinced to change user flows & navigation that showed 5% increase monthly return users

Navigation software tester, HERE Berlin (2014 — 2016)

- Conducted "Voice guidance assistant" in-house survey used in the car navigation of millions cars world wide
- Performed alfa-testing of HereWeGo apps with 10+ millions users (platforms: android & iOS)
- Adopted guidance assistant automation tests for international markets (tech stack: ruby & cucumber)
- Gained knowledge of Agile principles by using Scrum methodology

EDUCATION

Technische Universität Berlin / Master of Science

Berlin, Germany (2012 — 2016)

- Processed the development life cycle of an android app from the thesis topic "Development of an indoor location-based services information system" to publishing in Google Play store

Tallinn University of Applied Sciences / Bachelor of Science

Tallinn, Estonia (2006 — 2010)
